I'm proud to announce that I am one of only 10 members in Congress who earned a perfect rating by CPAC's Center for Legislative Accountability and will receive their Award for Conservative Excellence! The CPAC Foundation has published their Ratings of Congress for over 50 years, and these ratings continue to be a strong indicator on how committed members are to true conservative values.

I'm honored by the continual support from you and the many strong conservative organizations as stand up against the Biden Administration and left-wing radicals who are seeking to destroy what makes our nation great. I will continue to work every day to rein in the absurd levels of government spending, advocate for conservative values, reduce energy costs and create more high-paying jobs, preserve our legacy industries, and represent the people of Wyoming.

Town Hall Recap

What a great time we had at this week's town hall! Thank you to the hundreds who attended to

throughout Wyoming, and am so pleased that we had nearly 150 town hall in Powell (I assumed everyone would be doing chores and hope to engage with all of the people who are committed to making participating in our republican form of government.

The Bureau of Land Management (BLM) has released its draft environmental impact statement and management plan amendment for 69 million acres of greater sage-grouse habitat across nine states. As is now par for the course, and while the BLM is seeking public input on the draft EIS, it is only allowing 90 days for all of the stakeholders to read, synthesize, and provide substantive comments and suggested changes – this despite the fact that the document contains thousands of pages of material. This is simply not a reasonable time frame; as such, [I've asked the BLM director](#) to extend this comment period to 180 days in order to give all who are interested ample time to review and respond to a proposed change that impacts a land area that is larger than the state of Wyoming itself.

Congratulations, Heart Mountain Wyoming Foundation!

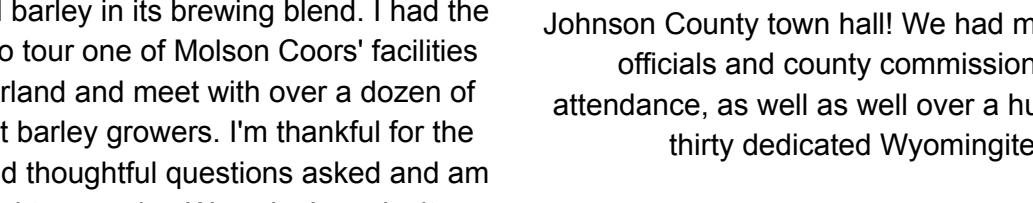

Please join me in congratulating Heart Mountain Wyoming Foundation for being named a finalist for the 2024 National Medal for Museum and Library Service by the Institute of Museum and Library Services (IMLS). They are just the third Wyoming institution to be named a National Medal finalist, after Buffalo's Jim Gatchell Memorial Museum received this award last year.

You may or may not know, but every can of Coors beer includes some of Wyoming's wonderful barley in its brewing blend. I had the chance to tour one of Molson Coors' facilities near Worland and meet with over a dozen of our great barley growers. I'm thankful for the insight and thoughtful questions asked and am committed to ensuring Wyoming's agriculture remains some of the best in the nation and is protected from foreign interference.

I had a wonderful time in Greybull Wednesday night for my Big Horn County town hall! I fielded numerous questions about the Republican's work to impeach Sec. Mayorkas, and I'm hopeful the Senate will do the right thing and put him on trial before the American people – following the correct process is the only way he will be held accountable for the invasion on our northern and southern borders.

What a fantastic crowd for 7:00 AM! Thank you to all who showed up in Powell for my morning town hall on Thursday. I can't wait for another town hall this coming Monday in Wheatland.

The House did not impeach Secretary Mayorkas because of “differences in policy.” He has violated the law and must be held accountable. The Senate has an obligation to hold a trial, to hear the evidence presented, and to seriously deliberate after the evidence is heard.

The Honorable Charles E. Schumer Majority Leader
United States Senate
Washington, D.C. 20510

Dear Majority Leader Schumer:

As Speaker and impeachment managers of the U.S. House of Representatives, we write to inform you that we will present to you upon the Senate's return, on April 10, 2024, the duly passed articles of impeachment regarding Department of Homeland Security Secretary Alejandro Mayorkas. We urge you to schedule a trial of the matter expeditiously.

On February 13, 2024, the House of Representatives voted to impeach Secretary Mayorkas for high crimes and misdemeanors, including his willful and systemic refusal to comply with the law and his breach of the public trust. The evidence on both charges is clear, comprehensive, and compelling, and the House's solemn act to impeach the first sitting Cabinet official in American history demands timely action by the Senate.

This methodical approach led us—and the American people—to the conclusion that Secretary Mayorkas' actions warranted impeachment. He refused to comply with the requirements of the immigration laws passed by Congress. In fact, he directed, through a series of memoranda, DHS employees to violate U.S. immigration laws. Consequently, the Secretary is responsible for releasing millions of illegal aliens into the interior and creating unlawful mass-parole programs. Throughout his tenure, he has repeatedly lied to Congress and the American people about the scope of the crisis and his role in it. His unlawful actions are responsible for the historic crisis that has devastated communities throughout our country, from the smallest border town in Texas to New York City.

The constitutional grounds for Secretary Mayorkas' conviction and removal from office are well-founded, and the historical record is clear. The Framers of our Constitution gave Congress this authority for scenarios where executive branch officials, who are responsible for executing the laws passed by Congress, flout the law substituting their own judgment for that of Congress.

We call upon you to fulfill your constitutional obligation to hold this trial. The American
