Hello Laura,

It is a somber day following the assassination attempt on President Trump last night. This is a senseless act of political violence and should be condemned by all. The House of Representatives will fully investigate this tragic event - I will keep you informed throughout the entire process. Please join me in continuing to pray for our nation, President Trump, the injured rally goers, and their families.

I spent another busy and interesting week in Washington, D.C., with the U.S. House of Representatives passing several pieces of vital legislation, including a bill to protect women in sports and locker rooms and a bill to ensure that our federal elections are fair and free from interference from illegal aliens. Keep reading below for an update on these bills and more!

House Passes Legislation to Protect Women

As many of you know, President Biden's Department of Education recently released new Title IX regulations seeking to expand the definition of "sex" to include "sexual orientation" and "gender identity." Since its enactment over half a century ago, Title IX remains a landmark piece of legislation that has promoted equal opportunities for women and girls in education and has paved the way for countless professional success stories. I was an early beneficiary of Title IX, entering Junior High soon after its passage. Girls' sports and other educational opportunities were expanded quite quickly, giving me the ability to participate in several of the more "nontraditional" pursuits that interested me, including shop, wood classes, welding, and livestock judging.

Despite its decades-long record of achievement, the Biden Administration, through rulemaking as opposed to an Act of Congress, has sought to rewrite and overhaul the foundational principles of Title IX to advance its radical gender ideology in the midst of an election year. Not only are equal opportunities for women and girls in education at stake, but these changes notably threaten their privacy and safety in schools. Biden's latest radical policy pronouncement does not advance the progress that has been made under Title IX. It instead seeks to disadvantage those very individuals who were meant to be protected upon its passage.

We must resist the Biden Administration's forceful attempts to institute those changes that run completely contrary to the intent behind Title IX. For these reasons, I am a proud original cosponsor of [H.J.Res.165](#), which passed the House of Representatives and would overturn the federal Department of Education's harmful rule. I have also cosponsored multiple other bills that seek to safeguard women and girls in sports, including [H.R. 734](#), the Protection of Women and Girls in Sports Act, which passed the House of Representatives, and [H.R. 7187](#), the Protection of Women in Olympic and Amateur Sports Act. As your representative, I will continue to do all that I can to support equal educational opportunities and provide for the safety of all women and girls in America.

House Passes Bill to Ensure Fairness in Federal Elections

I am happy to announce that a bill I cosponsored, [H.R.8281](#), the Safeguard American Voter Eligibility Act (SAVE Act), passed the House of Representatives on Wednesday. This legislation would require states to obtain proof of citizenship—in person—when registering an individual to vote and requires states to remove non-citizens from existing voter rolls.

President Biden has actively allowed for the invasion of over 11 million illegal aliens into our country since he assumed office, and in that time, Massachusetts, Virginia, and Ohio have found and removed noncitizens from their voter registration rolls. However, many states have refused to verify their own records. The SAVE Act, along with other Republican-led efforts, would ensure election integrity through commonsense solutions such as voter ID, adopting safeguards preventing non-citizens from voting, requiring signature verification, and implementing chain-of-custody requirements for ballots.

It is absolutely critical to ensure that the privilege to vote in our federal elections remains one that *only* American citizens can exercise -- NOT illegal aliens. To this extent, I also cosponsored and worked toward the passage of [H.R.7109](#), the Equal Representation Act, which would require a citizenship question in any future census to bar illegals from being counted for purposes of Congressional and Electoral College apportionment.

Update on My Efforts to Delist the GYE Grizzly Bear

Many of you are aware of my continued efforts to remove the Greater Yellowstone Ecosystem (GYE) grizzly bear from the federal list of endangered and threatened species. The GYE grizzly bear population has more than fully recovered, and keeping the bear listed poses safety risks to humans, livestock, and other wildlife. This is why I introduced [H.R. 1245](#), the Grizzly Bear State Management Act, which would require the Department of the Interior (DOI) to delist the species.

On Tuesday, the House Natural Resources Subcommittee on Water, Wildlife, and Fisheries, of which I am a member, held a hearing in which I questioned U.S. Fish and Wildlife Service (USFWS) Deputy Director Guertin on the agency's failure to respond to the state of Wyoming's petition to delist the GYE grizzly within the 12-month window required by the Endangered Species Act. You can watch my questioning [here](#), and you can view a letter I wrote to the USFWS on this same issue [here](#). As for Mr. Guertin's testimony, I was pleased to hear him report that the USFWS intends to issue a decision *by the end of July* regarding whether to delist the GYE grizzly population. I was also able to get him to admit that if we had the number of bears at the time of listing that we do now, they never would have been listed in the first place. I think that is a telling admission, and I hope that the USFWS will move forward with delisting as soon as possible.

While I am somewhat confident that the USFWS will recommend delisting the GYE grizzly population, it is better to be safe than sorry. It is for that reason that, also on Tuesday, the House Appropriations Committee passed out of committee the Fiscal Year 2025 Interior, Environment, and Related Agencies Appropriations Act. I am extremely grateful that the appropriations bill includes an amendment offered by Rep. Ryan Zinke (R-MT) that requires the DOI to delist the GYE population of grizzly bears. The amendment is derived from my Grizzly Bear State Management Act, of which Rep. Zinke is an original cosponsor. It is my hope that this bill is quickly passed and signed into law, as it is vital to returning management of the grizzly population back to the states where it belongs. Moving forward with legislative delisting is important to remind these federal agencies that it is Congress that passes the laws, and if an agency has failed to comply with the law as written, we will step in and correct the situation.
