Dear Chairman Cole and Ranking Member DeLauro,

I am requesting funding for the City of Casper for Lead Service Line Replacements in Fiscal Year 2027. The entity to receive funding for this project is the City of Casper, located at 200 North David Street, Casper, WY 82601. The funding would be used for the replacement of five water service lines in known and suspected lead service areas in the City of Casper Water Distribution System. The project is an appropriate use of taxpayer funds because it will allow the City of Casper to tackle five of its identified service line replacement needs to advance compliance with the EPA's Lead and Copper Rule Improvements mandate, while also addressing core infrastructure needs, ensuring safe drinking water, maintaining healthy municipal funds balances, and avoiding the need to significantly raise rates for Casper citizens.

The project has a federal nexus because the funding provided is for purposes authorized under Section 1452 of the Safe Drinking Water Act, 42 U.S.C. 300j-12.

I certify that neither I nor my immediate family have any financial interest in this project.

Sincerely,

A handwritten signature in blue ink that reads "Harriet M. Hageman".
