The Honorable Rosa DeLauro  
Ranking Member  
Committee on Appropriations  
1036 Longworth House Office Building  
Washington, D.C. 20515

Dear Chairman Cole and Ranking Member DeLauro,

I am requesting funding for the City of Douglas Water Treatment Plant Transmission Main Replacement in Fiscal Year 2027. The entity to receive funding for this project is the City of Douglas, located at 101 North Fourth Street, Douglas, WY 82633. The funding would be used for the replacement of a 20-inch transmission main from the Water Treatment Plant to Grant Street and the 16-inch water main in Grant Street from W. Clay Street to the Riverside Park, including all new fittings, valves, and fire hydrants, and a new butterfly valve inside the water treatment plant. The project is an appropriate use of taxpayer funds because it improves the reliability and water supply capacity of the water distribution system and will remove hurdles preventing growth in the community.

The project has a federal nexus because the funding provided is for purposes authorized under Section 1452 of the Safe Drinking Water Act, 42 U.S.C. 300j-12.

I certify that neither I nor my immediate family have any financial interest in this project.

Sincerely,

A handwritten signature in blue ink that reads "Harriet M. Hageman".
