Hello

We are in our August recess – giving me an opportunity to spend more time in the great State of Wyoming. I have been traveling to various communities, meeting with business leaders, local officials, constituents, and families to discuss the efforts House Republicans have taken to uphold our Commitment to America, including the numerous bills we have passed to get this country back on track; to describe the many ways in which I and my staff can assist you with federal agencies and issues; and to participate in events across the state!

Do you know someone who is having problems with a federal agency, who is not receiving all their benefits, or who feels like their voice isn't being heard? Tell them to [sign up for The Wyoming Round-Up!](#)

Having trouble with the IRS? My staff can help!

Did you know that my staff members are able to help you navigate your claims and issues with the IRS?

If you've been struggling to obtain timely answers from IRS agents regarding tax returns or a pending audit, please contact my staff at 307-670-5477 or [via my website](#).

Since becoming a member of Congress, we have been able to help dozens of Wyomingites just like Valerie to resolve their cases with federal agencies!

Introducing the Country of Origin Labeling Enforcement Act

Country of Origin Labeling Enforcement Act

H.R. 5081

- Clarifies the criteria for beef to be labeled as "made in the USA"
- Creates \$5000 fine per pound of falsely-labeled foreign beef
- Increases consumer awareness and confidence in the origin of their food

HARRIET HAGEMAN
WYOMING'S CONGRESSWOMAN

Wyoming is a state of producers, and we take pride in raising some of the finest beef in the world. Yet our large meat packing companies have falsely claimed for years that cattle *raised abroad*, while only being processed in the United States, is "made in America." This not only reduces transparency in knowing where our food comes from, but also takes money away from the hardworking farmers and ranchers producing healthy, high quality, and nutritious beef. American ranchers produce the best beef in the world. American consumers want to purchase American-raised beef. The federal government should not allow foreign raised cattle to ultimately be sold as "made in America."

My new bill will crack down on these deceptive labeling practices by instituting a hefty fine for all foreign beef falsely labeled as being from the United States and clarifying that beef "made in the USA" must be born, raised, slaughtered, and packaged within the United States.

Calling All Entrepreneurs!

If you are an entrepreneur or small business owner trying to break into a larger market, Walmart wants to help!

Walmart is now accepting applications for its annual Open Call event, providing a chance for local companies to pitch their products for placement in Walmart and Sam's Club stores across the nation. Applications are due August 18, 2023!

Keeping My Commitment to Wyoming

KEEPING OUR COMMITMENT

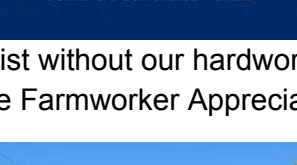

631 Hearings Held	917 Oversight Letters	45 Subpoenas Sent	160 Bills Passed
-----------------------------	---------------------------------	-----------------------------	----------------------------

When I took office, I made a public commitment to create an economy that's strong, a nation that's safe, a future that's built on freedom, and a government that's accountable. In the past 7 months, we have made immense strides in all of these goals and are working every day to increase transparency in government and return our nation to a place of global leadership and energy independence.

Wyoming's voice is being heard loud and clear in the halls of Congress. I have already introduced 15 bills that will restore the state's role in managing natural resources and wildlife, hold government officials accountable to the people they are supposed to serve, strengthen our nation's reliable energy sector, and much more. I've joined with colleagues on both sides of the aisle to cosponsor over 130 bills that will make government work better, and I have voted 382 times – a 100% record of voting on every single vote that has come before the House of Representatives.

By every available metric, this Republican-led House has been more productive than recent Congresses, and we are only getting started.
